

In the 19th century, we had **national parks**.
The 21st century needs a new model for a
global culture: a world park.

The **World Park** is a continuous landscape
of restored habitat with three major walking
trails reaching from Patagonia to Alaska,
Namibia to Turkey, and Australia to Morocco.

The World Park connects
19 biodiversity hotspots,
55 nations and secures **163000 km²** of
habitat for all species to share.
